

*Greg Setzkorn of Setzkorn Health and Wealth with Ntombi Mkhize from Orbis Africa*

#### Write-up:

Setzkorn Health and Wealth Consulting in Koof Old Main Road have opened their doors to Orbis Africa's KwaZulu Natal project manager. Orbis is a global non-profit organisation working in developing countries to reduce preventable and treatable blindness and visual impairment. Orbis has worked in 92 countries, trained 325 000 eye care professionals, provided 925 000 surgeries and treated 23.3 million people. Orbis programmes focus on building eye health services that are affordable, accessible and sustainable. Paediatric eye health is the focus of Orbis Africa's work in sub-Saharan Africa. Orbis facilitates quality eye care by providing the tools, training and technology necessary for local partners to develop lasting solutions to avoidable blindness.

"We are delighted to be able to contribute an office base for Ntombi Mkhize, the KwaZulu Natal project manager, to work from. It is our small way of assisting this very worthy initiative. Many people around the world are needlessly blind and Orbis plays a major role in preventing this. With KwaZulu Natal having the highest childhood blindness rate in the country we wanted to do what we could to help," explains Greg Setzkorn, managing director of Setzkorn Health and Wealth Consulting.
